

STAINLESS STEEL

A stainless steel tailor made solution for light to heavyweight sliding doors exposed to high levels of corrosion

For areas exposed to extreme levels of corrosive elements or where a high level of hygiene is essential, P C Henderson has developed a range of stainless steel sliding door hardware. Manufactured from high quality stainless steel and incorporating the latest polymers, this product offers a high level of performance and corrosion resistance.

Stainless Steel can be used for an array of applications including chemical factories, oil rigs, abattoirs, cold storage, food processing plants and areas exposed to salt water. Whatever the conditions, Stainless Steel will perform.
