

# HUSKY SOFT STOP HENDERSON

Interior Wood Metal 100kg

For wooden and metal sliding doors weighing up to 100kg with built in soft close and open mechanism

## Overview

Husky Soft Stop caters for sliding wooden and metal internal doors weighing up to 100kg. This superior product comes with the added benefit of a built in soft close **and** opening mechanism which gently decelerates the door and pulls it into its final position. The result is an extremely sophisticated and quiet system which boasts anti slamming properties and enhanced product longevity.

The dual soft stop is pre assembled and concealed within the track to provide ease of installation and a minimalistic finish. To ensure optimum performance the product is available in five kit variants, depending on the door weight of your application, and can be used with two choices of track.

## Features and Benefits

- Straight sliding door system with built in soft close and open mechanism
- System gently decelerates the door and pulls it into its final position
- Prevents slamming, adding to the overall longevity of the product
- Available in five kit variants for different door weights
- Soft stop is pre-assembled and concealed in the track upon installation
